Objective:

Dynamic and results-oriented Backend Developer with expertise in database engineering, seeking to leverage comprehensive skills and hands-on experience to drive innovation and efficiency in web development projects. Dedicated to delivering high-quality, scalable solutions that exceed client expectations and contribute to organizational success. Proven ability to collaborate effectively in virtual environments and mentor junior developers, ensuring team cohesion and continuous improvement. Committed to staying abreast of emerging technologies and best practices to remain at the forefront of the rapidly evolving field of software development. Ready to bring a proactive mindset and a passion for excellence to any team, contributing to the company's growth and success.

Education:

BACHELOR OF Medical Science (B.S.C) | 2017 - 2022 | Ambrose Ali University

- Major: Human Physiology

Training:

WEB DEVELOPMENT BOOTCAMP | UDEMY, ONLINE • FEB 2023 - APR 2024

Through comprehensive online training, I have acquired valuable skills in front-end web development, with a primary focus on React.js. These training modules were meticulously crafted to provide a deep understanding of React.js and its application in building modern and dynamic user interfaces. By immersing myself in these courses, I have developed proficiency in React.js and gained hands-on experience in creating responsive and engaging web applications. This training has not only expanded my technical skill set but has also prepared me to tackle real-world projects with confidence and expertise. I also acquired a comprehensive understanding and proficiency in backend development, Rest API, NoSQL databases, Node.JS, and Express.JS. These courses have not only expanded my technical knowledge but have also equipped me with practical skills through hands-on projects and coding challenges. With each new concept, I have undergone rigorous testing and coding challenges, developing multiple capstone projects that have further solidified my expertise in these areas.

Certificate: <https://www.udemy.com/certificate/UC-606e13a4-64bf-448f-a0e5-1ef5850f3e76/>

Skills

- HTML
- CSS
- JavaScript
- NodeJS
- Sass
- Sanity.io
- ReactJS
- Next.JS
- Git & GitHub

- MongoDB
- Bootstrap
- Tailwind CSS

Experience

WEB DEVELOPER INTERN | KreatengAfrica | APR 2022 - APR 2023

- Collaborated with cross-functional teams to gather project requirements, specifications, and design goals.
- Developed responsive and user-friendly websites and web applications using HTML, CSS, JavaScript
- Utilized version control systems, primarily Git and GitHub, to manage to ensure efficient collaboration with team members.
- Implemented front-end designs, incorporating UI/UX principles, accessibility standards, and responsive design techniques to enhance the user experience.
- Assisted in troubleshooting and resolving technical issues reported by clients and end-users.
- Maintained and updated existing websites and web applications, ensuring they remained secure and up-to-date.
- Worked closely with designers to ensure the translation of design concepts into functional web interfaces.
- Train and coordinate over one hundred students who enroll in Web development bootcamps.
- Train and coordinate organization staff on how to use and upload content on their website.
- Provided timely and efficient technical support within the organization, resolving hardware and software issues.

FREELANCER | FIVERR | APR 2023 – PRESENT

Worked on multiple freelance projects remotely for cross-platform rendering a scalability

Created and managed multiple database systems for business integration

Collaborated with developers to develop functional web systems for individuals and businesses
