Skills

Technologies & Languages
- RESTful API development
- TypeScript
- JavaScript/ES6
- ExpressJS
- Nestjs
- PostgreSQL
- WordPress
- Docker
- WordPress
- MongoDB
- MySQL
- Git
- NodeJS
- C#

Methodologies & Concepts
- Agile Scrum Development
- Security and data protection
- Microservices architecture

Hard Skills
- Debugging
- Testing
- Command Line
- Cross-Browser Development

Soft Skills
- Strong Leadership Skills
- Excellent Communication
- Problem-Solving
- Critical Thinking

Professional Summary

A results-driven and proactive Software Developer with a proven track record in leading diverse teams and delivering high-quality solutions using React, NodeJS, WordPress, and micro Backend architecture. Years of experience in creating intuitive user interfaces, leveraging modern technologies to develop scalable applications and streamline workflows. Passionate about innovation, team collaboration, and consistently exceeding project goals.

Work Experience

Hagull   2024 – 2025
Backend DEVELOPER INTERN (NYSC)

- Contributed to transitioning the backend codebase from Express.js to NestJS, enhancing modularity and scalability.
- Designed and implemented APIs for user authentication and login, ensuring robust security measures.

  Managed and queried databases using PostgreSQL for efficient data storage and retrieval.

- Participated in code reviews to maintain high-quality standards and best practices.
- Utilized Docker for containerized application deployments and managed the database hosted on Supabase.
- Integrated Kafka for messaging and event-driven architectures.
- Engaged in continuous learning to stay updated with emerging backend technologies.

  Collaborated with team members using Git, pushing code to repositories, forking others' contributions, and merging changes effectively.

Blueloop   2023

Web developer (intern)

  Developed responsive and user-friendly websites and web applications using HTML, CSS, JavaScript, and WordPress.

- Worked closely with designers to ensure the translation of design concepts into functional web interfaces.

  Collaborate with front-end developers to integrate user-facing elements with server-side logic.

Team Lead, Experience Design & Automation

  Train and coordinate over one hundred students who enroll in Web development boot camps.

SOLOMON Chukwuka

software developer | React | NodeJS | WordPress | Automation

- Train and coordinate organization staff on how to use and upload content on their website.
- Provided timely and efficient technical support within the organization, resolving hardware and software issues.
- Conducted comprehensive UI design reviews resulting in user-centric, accessible projects, reflected in improved Customer Effort Scores and high Customer Satisfaction rates.
